1. Claims 1-7 are allowed.

2. The following is an examiner's statement of reasons for allowance: The closest references are Wu (newly cited), Spinner and Kho (previously cited). These references do not teach, nor would it be obvious to have the bypass capacitor and high voltage power supply threaded to alternating ones of the series of fiber optical transceiver channels as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Wu (3969670) teaches a test pad and power pads for an integrated circuit.
